Helicopter

Have you ever seen a helicopter whirling in the sky? It can fly straight up and _____ and even hover (stay in one place in the air). Helicopters have many jobs. Some help people watch the _____ below, others take people sightseeing!

A _____ sits at the front and flies the helicopter.

A _____ lets the pilot talk to people on the ground.

Flat _____ whirl around and lift the helicopter into the air.

A long tail with spinning blades at the end keeps the helicopter _____.

The pilot moves a _____ to make the helicopter go up and down or stay still.

The helicopter _____ gently on its two strong skids.

_____ sit in the bubble-shaped cabin and look at the amazing view.
