# Hermit crab

Hermit crabs live in empty \_\_\_\_\_ of snails or other animals. When the crab grows larger, it finds a bigger shell in which to live. Hermit crabs will \_\_\_\_\_ just about anything. But they need a balanced diet and fresh \_\_\_\_\_. They also need a moist, \_\_\_\_\_ environment. A plastic or glass \_\_\_\_\_ with sand makes a good "crabtat"!

Hermit crabs like to climb and play on rocks and \_\_\_\_\_.

\_\_\_\_\_ helps keep the tank warm. Use a \_\_\_\_\_ to check the temperature of the tank.

A \_\_\_\_\_ helps keep moisture in the air.

Give your hermit crab a variety of \_\_\_\_\_ to grow into.

The hermit crab drinks and feeds itself with its small right \_\_\_\_\_. It uses its large left pincher, to move around and defend itself.
