💡 Electric light

Without electric light, our world would be a _____ place much of the time! _____ power can light up a room or an entire _____ at night!

A _____
uses electric power
to light a street at
night.

An electric
_____ lights up
a room.

It's a fact!

Edison's first light
bulb lasted 13 ½
hours. Today's
energy-efficient
light bulbs last up
to 15,000 hours.

CREEPY CREATURES

In 1879, the American
inventor Thomas
Edison invented the
first useful electric
_____ _____.

A _____ turns
the lamp on or off.
