# Hockey

The most popular kind of hockey is \_\_\_\_\_ hockey. Ice hockey is played by two teams in a space called an ice \_\_\_\_\_. It is a fast moving sport. Players use long wooden sticks to hit a small, black, round piece of rubber called a \_\_\_\_\_. Players pass and shoot the puck into a goal cage or net to score a \_\_\_\_\_. Players called \_\_\_\_\_ try to keep the puck out of the net.

Field hockey is another type of hockey game. It is played on the \_\_\_\_\_.

A \_\_\_\_\_ and thick \_\_\_\_\_ help to keep each player from getting hurt.

Players try to shoot the puck into the \_\_\_\_\_ cage.

Hockey players use a wooden \_\_\_\_\_ with a flat end to move the \_\_\_\_\_.

Hockey players move very fast around the rink on their \_\_\_\_\_.
