# Tennis

Tennis is played with a kind of paddle called a \_\_\_\_\_ and a ball. It is played in a space called a \_\_\_\_\_. A \_\_\_\_\_ divides the court in half. Players hit a \_\_\_\_\_ to one another over the net. Points are \_\_\_\_\_ when a player cannot hit the ball back over the net.

Tennis play begins when one player throws the ball high in the air and hits it with the racket to the other player. This is called \_\_\_\_\_ the ball.

A tennis \_\_\_\_\_ is light, fuzzy, and hollow.

Players try to hit the ball over the \_\_\_\_\_.

Tennis \_\_\_\_\_ are made so that the rubber bottoms hold onto the court.

A tennis \_\_\_\_\_ has a handle and a net of tight strings.

\_\_\_\_\_ tennis, or ping-pong, is a fun indoor game that is played like tennis.
