

To help you complete this worksheet, use the *Under the Sea* book.

Animals That Look Like Plants

It's a fact!

What animal loves to eat shellfish by wrapping its arms around a closed shell and pulling with all its might to reach the tiny food inside?

A round, fleshy _____ holds a sea anemone firmly to a rock.

A sea _____ looks like a pretty flower, but this animal traps creatures in its tentacles and eats them!

A starfish is shaped like a _____, it has five arms covered with small bumps.

When a sea anemone is scared, it closes up its _____ and looks like a blob of jelly.

A starfish slowly crawls over the seabed in hundreds of little, tube like _____.
